

RESPIRABUILT

Natural Finishes by Respira

The Respirabuilt render range at a glance — for designers, builders and owner-builders

Every render recipe here is natural and breathable. Lime and clay, No acrylics, made to work hand-in-hand with hempcrete walls.

Choosing your finish

Our finishes at a glance. Supply cost, the recipe and the look. And once you've chosen, we're with you the whole way:

- **A detailed PDF for every finish** — based on the render or finish you choose, its complete guide: recipe, build-up, coverage, technical data and care.
- **The right renderer** — we match you with the best applicator from our network
- **Doing it yourself?** Install guides, product support and straight answers at every step.

Our Recipes! And why they matter.

We call our render systems Recipes: a base coat that grips, mesh that stops cracking, a bonding gauge between layers, and top coats that carry the look. Every Recipe is lab tested and proven on hempcrete — we've done the guesswork, so nobody on your job has to.

Finish coats — the look

Mesh — stops cracking

Base coat — grips the wall

Substrate

One system — every layer earns its place

WHAT'S INSIDE

O3

Signature finishes, internal — Venezia, Canaposo, Malta Fine

O6

The plasters, internal — Otsumigaki, Marrakesh

O7

The paints, internal — Lime Wash, Clay Paint Casa

O8

External/Internal, 08–09 — Canapulino, Lime Plaster

APPLIES TO EVERY FINISH IN THIS RANGE — SIGNATURE, PLASTER, PAINT AND EXTERNAL

Colour — every finish can be toned

Natural oxides, supplied separately — the dose in the mix sets the depth. Neutro and Cocciopesto are standard; coloured earths to order.

Neutro

Cocciopesto

Ochre*

Raw Sienna*

Terracotta*

Burnt Umber*

Green Earth*

Stone Grey*

Venezia

Our signature statement finish — 5mm hemp shiv through a lime putty aged eighteen months, laid with hemp shiv left exposed. Textured, or trowelled smooth. The finished tone shifts with the sun.

RECIPE & PRICE PER M²

ON HEMPCRETE (RESPIRABLOCK) \$45

Two 5 mm coats of Venezia, straight onto the block. No base coat, the hemp prevents cracking like a mesh. Junctions reinforced first.

ON PLASTERBOARD & RESPIRA DRYWALL \$38

Grit undercoat, joins meshed, then two coats Venezia.

 VIDEO

Watch Venezia being applied

Canaposo

A smooth, finish over a Venezia base — flatter and finer than Venezia. Canaposo is an internal finishing render made from lime putty rested for eighteen months, blended with 1 mm fine hemp powder and no hydraulic binders — just natural lime and hemp at work. Applied as a soft 2–3mm skim coat

RECIPE & PRICE PER M²

ON HEMPCRETE (RESPIRABLOCK) **\$45**

5 mm Venezia base, then Canaposo in two coats to 2–3 mm, steel-trowelled and sponge-floated glass-smooth. Junctions reinforced first.

ON PLASTERBOARD **\$22**

Grit undercoat over the whole board, joins meshed, then Canaposo in two coats to 2–3 mm.

ON RESPIRA DRYWALL **\$22**

Grit undercoat, joins meshed, a 3 mm base coat, then Canaposo in two coats to 2–3 mm.

Malta Fine

A smooth, steel-trowelled civil finish over a Venezia base — flatter and finer than the textured signature coats. Equally at home left bare or as the base for decorative, breathable paint.

RECIPE & PRICE PER M²

ON HEMPCRETE (RESPIRABLOCK) **\$45**

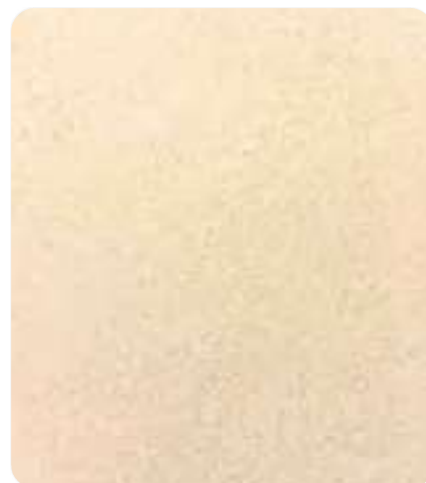

5 mm Venezia base, then Malta Fine in two coats to 2–3 mm, steel-trowelled and sponge-floated glass-smooth. Junctions reinforced first.

ON PLASTERBOARD **\$22**

Grit undercoat over the whole board, joins meshed, then Malta Fine in two coats to 2–3 mm.

ON RESPIRA DRYWALL **\$22**

Grit undercoat, joins meshed, a 3 mm base coat, then Malta Fine in two coats to 2–3 mm.

The Plasters

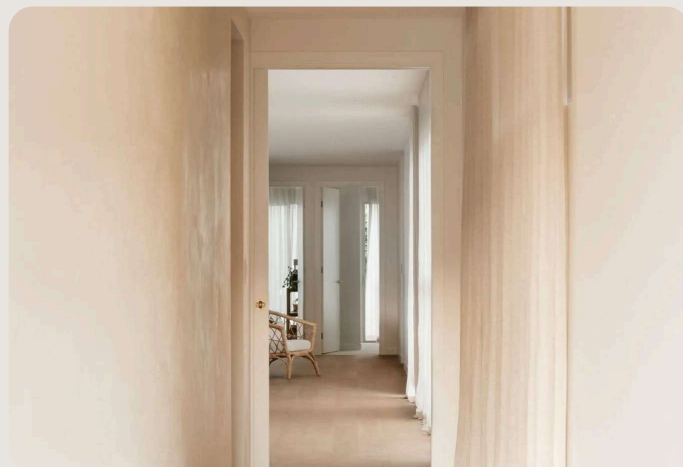

lime & clay. With Rockcote. Recipes designed for hempcrete exclusive to Respirabuilt

Otsumigaki

Silky clay-and-lime — left soft and flat, or burnished to a glass-like lustre; sealed with natural carnauba wax.

INTERNAL · NOT WET AREAS

RECIPE & PRICE PER M² EX GST

ON HEMPCRETE **\$60**

Fully meshed Terra Luxe base at 3 mm, two coats of Otsumigaki, sealed with natural carnauba wax.

ON PLASTERBOARD & RESPIRA DRYWALL **\$44**

Grit undercoat, two coats of Otsumigaki, sealed with natural carnauba wax.

Marrakesh

Stone-like tadelakt of lime and marble — a feature finish for any room: fireplaces, bedheads, columns, full interiors. The olive-soap burnish makes it bathroom-ready too — and full wet areas are possible when installed by a skilled applicator.

INTERNAL · FEATURE FINISH

RECIPE & PRICE PER M² EX GST

HEMPCRETE, PRE-MIXED **\$85**

Fully meshed earthen render base, two coats of pre-mixed Marrakesh, burnished and sealed with traditional black olive soap — pre-mixed saves labour on site.

HEMPCRETE, SITE-MIXED **\$50**

Fully meshed lime base at 3.5 mm, two coats of site-mixed Marrakesh, burnished and sealed with black olive soap.

ON PLASTERBOARD & RESPIRA DRYWALL **\$75 / \$47**

Grit undercoat, Marrakesh at 2–3 mm, burnished and sealed with black olive soap — pre-mixed \$75, site-mixed \$47.

The Paints

brushed or rolled — the simplest breathable finishes

Lime Wash

\$25

PER M² EX GST

Two coats brushed straight onto hempcrete — a soft, weathered patina that ages with the wall. The budget breathable finish.

RECIPE & PRICE PER M²

ON HEMPCRETE	\$25	Two coats brushed or rolled straight onto the hempcrete. No primer needed.
ON PLASTERBOARD & RESPIRA DRYWALL	\$25	Grit coat, then two coats of lime wash.

Clay Paint Casa

hempcrete \$60
paint only \$30

PER M² EX GST

Ultra-matte clay paint — calm, uniform and non-reflective; smoother and more matte than Marrakesh.

RECIPE & PRICE PER M²

ON HEMPCRETE	\$60	Fully meshed earthen render clay bridge at 2–4 mm, one coat of Terra Luxe, then two coats of Clay Paint Casa.
ON PLASTERBOARD & RESPIRA DRYWALL	\$60	Grit undercoat, fully meshed earthen render clay bridge at 2–4 mm, one coat of Terra Luxe, two coats of Clay Paint Casa.
PAINT ONLY	\$30	Two coats of Clay Paint Casa on any sound, prepared wall.

Canapulino

Canapulino is our hemp-look render finish for external walls. For outdoor use, the only finish of its kind available in Australia. Crafted from lime putty rested eighteen months and blended with fine hemp shiv. A soft, visibly textured surface, in a natural off-white tone or a pre-mixed colour. Giving your home an exterior as honest and natural as the hempcrete walls beneath it.

RECIPE & PRICE PER M²

ON HEMPCRETE,

Lime Plaster

The classic — the finish most people picture when they think of lime render. A soft, flat mineral surface that matures beautifully; true lime, no cement, heritage-compliant. Our only external system.

RECIPE & PRICE PER M²

ON HEMPCRETE, EXTERNAL/INTERNAL **\$47**

A fully meshed lime base, then lime render built to 10 mm in three coats (4 + 4 + 2 mm), the first gauged for bond.

ON PLASTERBOARD, INTERNAL **\$22**

Grit undercoat, then basecoat at 6 mm.
